

# SAIKRISHNA BANDI

Motivated and detail-oriented recent graduate aspiring to begin a career in data analysis. Strong interest in interpreting data and identifying meaningful insights to support business decisions. Known for analytical thinking and problem-solving abilities. Quick learner with a proactive and responsible work attitude. Eager to contribute to a data-driven organization while continuously growing professionally.

## Educational Background

### Mohan Babu University, Tirupathi, Andhra Pradesh- (2023 - 2026)

Bachelor of Computer Applications (BCA) - 7.76

### Narayana Junior College, Gudur, Andhra Pradesh (2020-2022)

Pre - University (MPC) - 68.3

### Narayana E.M High School, Gudur, Andhra Pradesh (2019-2020)

10<sup>th</sup> Schooling - 97

## Internship

### Data Science - CodeTech IT Solutions, Hyderabad

- Assisted in analyzing datasets to identify patterns, trends, and meaningful insights.
- Performed data cleaning and preparation to improve data quality for analysis.
- Worked on the ETL (Extract, Transform, Load) process to collect, transform, and organize data from different sources.
- Supported the team in preparing reports and summaries to assist data-driven decision-making.

## Projects

### Deep Learning-Based Drug Efficacy Recommendation System for Glioblastoma(GBM)

- Designed a deep learning system to analyze GBM patient data, including gene expression and mutations, to predict the most effective drugs for each patient. The system enables personalized treatment, improving outcomes by recommending the right drugs for the right patient and supporting precision medicine approaches.

### Business Intelligence Dashboard for SN Corp

- Developed an interactive dashboard for SN Corp to visualize key business metrics and track performance in real-time.
- Integrated data from multiple sources to provide insights on sales, operations, and customer trends.
- Helped stakeholders make data-driven decisions by presenting information clearly and intuitively.

PH NO : 8125560305

Mail : saikrishnabandi@gmail.com

Location: Gudur, Andhra Pradesh

## Technical Skills

- Tools - Power BI, Tableau, MS Excel
- Data Analysis, Data Cleaning, Data Visualization, Statistical Analysis, Problem Solving
- Languages - Python, SQL
- Designing Tools - Canava, Adobe, Capcut Lightroom, VN,

## Strengths

- Strong skills in data visualization and reporting using Power BI
- Strong time management and punctuality

## Certification

- Power BI Workshops - Hands-on dashboards,data modeling
- IBM National Hackathon - Data Dashboarding
- Conducting National Hackathons in Universty
- Data Science (intenship)

## Languages

- English
- Telugu

## PROJECTS

- Deep Learning-Based Drug Efficacy Recommendation System for Glioblastoma(GBM)
- Business Intelligence Dashboard for SN Corp

## Additional Information & Hobbies

- Elected Class Representative (BCA)
- Event coordinator
- Hackathon Coordinator
- cricket, Badminton
- Editing cinematics
- Photography
